

## ABOUT

(Adam Spence)

Adam Spence of Polar Inc isn't only a highly talented performing artist, but an individual who deems to give his audience an experience that they will never forget. His talent was bred from the young age of 8 from where he first experienced the sound of EDM from his cousins room that caught onto Adams senses immediately, and has thrived from there on. Adam has progressed in producing captivating Electro, Progressive, Deep and Future House which presents its own unique sound of Polar Inc and further providing the growing audiences interest.

His path has been a journey towards playing at top nightclubs in Cape Town and touring with the infamous Chris Taylor. The dedication of Adam Spence and the Polar Inc team has further promoted their drive into the EDM scene in South Africa and provided the opportunity for Polar Inc to play Hardwells opening set on his tour.

If you are to walk onto the dance floor while a Polar Inc set is being played, you will be there until the end!

*"Producing EDM is the most addictive thing I had ever done, making a track from scratch is like having your own creation that reflects elements of who you are."*

– ADAM SPENCE
